PRE-KINDERGARTEN

PreK Learning-Exploring Spring: Our PreK students will embark on a nature walk to discover the signs of spring. Along the way, they'll collect natural materials to create beautiful nature collages. To celebrate the season's arrival, they will also explore flower printing, using a variety of colors and shapes to capture the beauty of spring.

Spring Health Tips: Spring is an important time for children's growth and well-being. Keep them healthy with these simple tips:

- **Stay Active:** Encourage outdoor play like walking, biking, and running to support fitness and boost immunity.
- **Eat Well:** Provide a balanced diet with plenty of fruits, vegetables, whole grains, lean proteins, and low-fat dairy.
- **Stay Hydrated:** Children aged 3-6 need 600-800 ml of water daily to stay hydrated.
- **Get Enough Sleep:** Ensure they get 10-13 hours of sleep each night for optimal energy and development.

Parenting Corner-Quality Time Matters: It's not about how much time you spend, but how present you are. Even a few minutes of focused, distraction-free interaction—whether reading, talking, or playing—can have a lasting impact on your child's development.

PRIMARY (K-5)

Focus of the month – Service to Others

Service to Others

April's virtue is Service to Others, highlighting the importance of kindness, compassion, and lending a helping hand. Whether through small gestures or larger commitments, acts of service not only make a positive impact on our community but also foster a sense of fulfillment and connection. This month let's take the time to support those in need and make a meaningful difference in the lives of others.

GK-G2 Swimming

Swimming classes for Kindergarten to Grade 2 will begin in Term 4. Parents have been sent a detailed letter with all the necessary information. The first class will take place on the Monday after spring break. If you have any questions, please reach out to Mr. Robb.
